

2024-2025 OUTCOMES AND RECOMMENDED MEASURES

The Children's Board evaluates the impact of the services provided to children and families in four focus areas: Children are Healthy and Safe, Children are Developmentally on Track, Children are Ready to Learn and Succeed and Family Support.

The Children's Board has developed a list of outcomes and recommended measures for each of the focus areas. Outcomes are displayed by type with examples of currently approved measurement tools, applicable target populations, and corresponding indicators to evaluate participant performance.

PERFORMANCE ACCOUNTABILITY

The Children's Board promotes continuous quality improvement by working in close collaboration with our funded partners to evaluate annual program performance. By selecting outcomes and measures from this list, programs work collaboratively with Children's Board staff to develop a matrix/work plan that enables them to examine the ongoing effectiveness of program services.

The Children's Board annually assesses the collective impact and effectiveness of our combined investments within a Results-Based Accountability™ framework by answering the following three questions:

How Much Did We Do?

Measures the quantity of the services provided. For example, the number of babies born, number of families provided with information and referral services or number of program participants enrolled.

Is Anyone Better Off?

Measures the effect or impact of the services provided and the level of change produced. Outcomes are categorized by type of change: knowledge/skills, attitudes, behaviors or circumstances. For example, the percent of babies born at appropriate birth weight, the percent of youth with improved self-esteem or the percent of families with improved family well-being.

How Well Did We Do It?

Measures the quality of the services provided. For example, the number of participants satisfied with the services provided or the percent of staff with necessary training/certifications.

CHILDREN ARE HEALTHY AND SAFE
